Tokenomics

 Total supply: 67.9M DFP2

 50M staking rewards

 129M hard fork from v1

 25M community fund

 25M locked team incentives

The profits from the community run arb bot are used to buy DFP2 on DefiPlaza and then burned, reducing the total supply. 250k DFP2 has burned until April 1, 2022.

Highlights

- US\$ 55M in total trade volume per mid April 2022
- 19k swaps per mid April 2022
- Smart Contracts audited by Pessimistic.io
- 1inch integrated DefiPlaza to offer cheaper trades
- Building an ecosystem of optimized DEXes with the launch of StablePlaza and MoonPlaza
